STRIKE IN MAIN ARROWHEAD

RICH ORE ENCOUNTERED IN SHAFT AT 170 FOOT DEPTH

REACH THE LIMIT OF ENDURANCE

(By Associated Press)
WASHINGTON, May 7.—Bankers called before the Senate Interstate Commerce committee today did not agree with the testimony of the Railroad Executives yesterday that the government should loan half a billion additional to the roads for new rolling stock. They said, however, that no great part of the \$610,000,000 which the railroad presidents estimated would be necessary for new equipment could be raised from the public.

TEACHERS GIVEN INCREASED PAY

At a very earnest and important meeting of the Board of School trustees lasting from three o'clock until nearly seven last night the board reorganized by electing Thomas J. Lynch chairman, Fred Ninnis, clerk, and qualifying J. C. Piercy the newly elected member, as a full fledged trustee. The all absorbing question of salaries was taken up and discussed from every angle resulting in a motion which was carried unanimously. All salaries of grade and high school teachers were raised \$15 per month effective on September 1, 1920. All teachers who have been on the staff for ten years or more will receive in addition to the board advanced schedule of \$10 more per month, effective on September 1. This will make the scale of monthly salaries in the local schools as follows: Minimum, for the first year, \$135; third year, \$140; fourth year, \$145; fifth year, \$150; tenth year, \$160. "In the high school the minimum will be \$150 and the maximum \$165. All salaries will be payable for eleven months. Regarding attendance at summer months it was resolved that teachers attending once in three years would receive the bonus of one month's pay so that those who attended last year and do not go this summer will receive 12 months' pay next year. Teachers attending summer school this year will be entitled to twelve months' pay next year.

CHROME DEPOSITS FOUND BY SERBIANS

(By Associated Press)
BELGRADE, May 7.—Chrome deposits sufficient to meet the world's demands have been discovered in Serbia, it is announced by the American advisory committee to the Yugoslavian government. The discovery was made due to the gratitude of natives who brought large quantities of the ore to the American Red Cross hospital at Priazen after being given treatment. Mining machinery taken by the Austrians is expected to be delivered soon and will be sent to the ore deposits, which will be developed immediately. It is said rich veins of lead and cinabar have been found in the same region.

CANNON MOTOR FOR AIR GUNS

(By Associated Press)
SAN FRANCISCO, May 7.—Development of a cannon-motor for high-powered battle cruisers of the air for the ordnance department of the United States army places America in the van of military aeronautics and revolutionizes aerial fighting. It was announced at the recent aero show here with the sanction of Major General Clarence S. Edwards of the ordnance department of the army. The special 300 h. p. army motor is built around a 37 millimeter cannon which is housed in the crank case of the motor. It fires an inch and a half armor piercing shell, the cannon muzzle projecting through the propeller base. It has a fourteen-inch recoil.

For ground-strafting of tanks, breaking up of battle formations of airplanes, and destruction of helium dirigibles the shells will be loaded with buckshot, according to John M. Rogers, aeronautical engineer of New Brunswick, N. J.

LIVELY TRADING IN ARROWHEAD STOCK

The strike in the Arrowhead mine started something in San Francisco where heavy buying orders sent the quotation from 12 to 16 on commitments calling for 76,000 shares. Downward Extension of High Grade Shoot On the Second Level

The whole bottom of the shaft of the Arrowhead Mining company is in shipping ore that came in Wednesday when Wesley Ellis, the contractor for sinking the shaft, placed the second shot at a depth of 170 feet. The appearance of the shoot presumes an improvement in values within the next round or two, according to the judgment of Dr. A. H. Effman, consulting engineer, directing the operations, who believes the shoot is the downward extension of the ore shoot which was cut by the second level west of the shaft. The ore on that level averages \$130 per ton for width of three feet and a few days ago fifteen sacks of ore were taken out which assayed \$756 per ton.
